

GARDENS REPORT – November 25

OCEAN DRIVE / THE PANTILES

OWNERSHIP:

I am pleased to report that the owners confirm that we have permission to continue to maintain the site, but they retain ownership (as we had expected).

RE-VAMP:

No TPOs in force. I have therefore advised Alex Maynard and requested that removal of the apple tree now be included. A revised quote is awaited.

Work is scheduled for early in the new year. After which the required planting and associated costs can be assessed.

Enquiries have not established who actually owns the bench.

BARBARY LANE / CLOVER LANE

I have, for some time, had 13th Nov in diary to work alongside Bruce Carle to fit the edging between the shale and the centre.

I shall then request that he prepare the centre for subsequent planting – most likely end Nov into Dec.

OTHER MATTERS

Remaining sites being kept neat and tidy.

No apparent progress from WSCC re Langbury Lane bench repair. I shall chase.

Simon Thompson
